

I am writing regarding the new LPFM radio stations and the existing initiative to give these stations preference over current FM translator stations. I listen to K-Love on several local stations here in North-central CA (88.3 and 90.7, primarily). I would like you to know that K-Love has been a huge source of encouragement to me personally, providing much needed boosts at times when I have been discouraged or depressed; I am certain that others have received similar benefits. While I do not doubt that new LPFM stations may include broadcasting with similar content, I feel that it would be a significant loss to our listening community to have a ministry like K-Love removed. K-Love is listener-supported, so its continuing existence is further proof that its listener-base so values its service that they are willing to support it financially (as I have).

I plead with you to please reconsider any decisions to eliminate or cut back K-Love's broadcasting. In these turbulent times of terrorism and uncertainty, we need a source of encouragement and stability such as what K-Love is so wonderfully providing. Thank you for your consideration.
